

EUREKA[®]

HEAT ARC FLASH 13G CUT E

PRODUCT CODE: E13-4HAF17

FEATURES

- » High cut resistance - EN388 Level E rating
- » Heavy duty design with puncture resistance up to 100N and Tear resistance up to 75N
- » **Optimized for medium arc flash risks with Eureka arc flash dot technology. Rated to ASTM F2675:**
 - ATPV = 17,1 Cal/cm² (Back of hand)
 - ATPV = 57,9 Cal/cm² (Palm)
 - EN 61482-1-2 Modified by Aitex (Box Test) = ARC 2
 - NFPA 70E = Level 2
- » Contact heat resistant over 150°C
- » Breathable seamless knit para-aramid liner with 2% anti-static fibre, FR viscose, polyamide, fibre glass and spandex for a comfortable glove with high dexterity
- » Perfect in tough working conditions with high spark, heat and flame risks
- » Coated palm provides good grip in dry and wet/oily environments
- » Reinforced thumb crotch

APPLICATIONS:

- » Switching and Racking Breakers
- » Switch Boards and Electrical Panels

- » Electrical Facilities Maintenance
- » High Load Power Generation

SPECIFICATIONS
