ECO-FRIENDLY

FEATURES:

- Water resistant full grain leather.
- Crafted with eco-conscious innovation, this product features a composite toecap made from 70% recycled materials; laces, webbing, and collar material composed of 100% recycled materials; lining fabric made from 50% recycled materials; and an outsole containing 10% recycled material.
- COOLstep® lining to absorb moisture and odour for optimum freshness and hygiene.
- HEELguard for added stability and impact protection.
- COMFORTcushion® Impact Absorption System with PORON™ protects the heel and ball of the foot.
- NATUREform® wide profile hi-impact composite safety toe cap is fully nonmetallic and constructed from 70% recyclable and renewable materials.
- NANOlite® footbed with a gently raised surface to help reduce fatigue.
- Oliver SOFTstride® open cell low density urethane foam built into the insole for ultimate comfort and contour support.
- Convenient quick release side zipper.
- Excellent slip resistant sole; SR slip resistant classification. Anti-static.
- AT's dual density PU/Rubber sole made from 10% recycled materials, with a lightweight shock-absorbing PU midsole and a hardwearing rubber outsole that can withstand 300 °C surface contact for superior durability.
- Deep tread profile, with a self-cleaning design delivers superior traction in the roughest of terrain.
- Sole resistant to mineral & organic oils & acids. Cut, split and crack resistant.
