

CHAINEX

Detectable Chainexpert ChainExium Gloves

Product description

The ChainExpert Detectable chainmail glove features a self adjusting wrist spring for ease of use. This spring style glove has been developed as the new generation of chain mesh gloves. ChainExpert Detectable is made of a specific alloy to ensure an exceptional level of detection of the smallest particles of the metal rings. This micro detectability leads to a safety level unique on the market.

FEATURES

- Manufactured from detectable stainless steel chainmail wrist glove with stainless steel spring.
- Bacteria proof, easy to clean for complete hygiene.
- Self adjustable, molding itself to the hand without need for any other type of closure.
- Promotes 100% wear time with no straps or press stud fastenings.
- No lateral slit on glove completely protecting the hand and arm.
- Each glove is given a unique serial number enabling traceability, individual glove allocation and record keeping.
- 100% stainless steel guarantees a hypoallergenic glove with no contamination risk from a fastening strap.

APPLICATIONS

- Metal works
- Meat processing lines
- Kill floors
- Meat deboning
- Poultry works
- Fish processing
