

Impact[®] PRO Earmuffst

Product description

The IMPACT PRO has been designed for high amplification, whilst having the ability to amplify conversation and ambient sounds.

The unique stereo microphones allow detection of the direction of ambient sounds, enhancing communication abilities and awareness of surroundings. This earmuff is provided with electrical audio jack input for connection with MP3 players, cell phones and radio scanners.

FEATURES

- Directionally placed stereo microphones amplify low-level sound while blocking harmful impulsive noise over 82dB.
- Aggressive earcup design and rubberised pressure points.
- Single knob for on/off and volume control.
- 4-hour auto shut-off extends battery life.
- Easy height adjustment and padded head-band adjust for a secure, non-slip fit.
- Equipped with an external input and connection cord that allows you to connect to your own audio source.

APPLICATIONS

- Manufacturing
- Processing
- Machinery
- Trucking
- Outdoor
- Applications where hearing protection is paramount, as is the ability to hear important warnings or conversation.
