

DuraFlex™ Glove & Barrier (No Pole Strap) Harness

Product description

The Miller® NPS Glove & Barrier harness was specifically designed without any metal hardware above the waist making this harness perfect for working at height in live wire situations.

FEATURES

- Frontal belay loops for fall arrest (must be used together).
- Rear 500mm extended dorsal with soft eye.
- Equipped with confined space loops.
- Vest style for easy donning.
- Equipped with a label pack housing all relevant harness information including donning instructions, connection instructions, AS/NZS 1891.12007 „certification and inspection grid. The label pack is also equipped with an oversized pullfree lanyard ring enabling the user to temporarily park the lanyard.
- Fully adjustable:
 - Leg
 - Chest and shoulder straps.
- All attachment points are clearly labelled and define the attachment's application.
- Brightly coloured webbing enables the user to be easily identified whilst working at height.

APPLICATIONS

- Live Wire applications
- EWP
- Confined Space

Technical Information

- Manufactured from DuraFlex™ webbing which provides flexibility of movement for the wearer.

STANDARDS

Complies with Australian Standard AS/NZS 1 891.1- 2007.
