

Miller® SafEscape™ Elite

Rescue Descent Device

Product description

During the rescue or evacuation of a person working at height, safety is of paramount importance. That is why Miller developed the next generation rescue solution. The SafEscape ELITE will take you to safety even under the harshest conditions. Standard kits are available in 20m, 40m & 80m configurations (see table below for details). Specific lengths of rope can be manufactured on request.

FEATURES

- The position and design of the hand wheel reduces swaying during lifting, facilitating the evacuation procedure
- The centrifugal brake controls the decent and reduces vibration making decent quick and smooth (1m/s)
- Decent loads possible from 30kg to 250kg (2 people)

APPLICATIONS

- Wind Energy
- High Voltage Masts
- Cranes
- Any areas normally inaccessible by conventional means.

1028752

1028771

1029156

Max User Weight	Max Number of Descents	Max Descent length before unit requires service (based on max user weight & max number of descents)
75kg	20 x 500m	10,000m
100kg	16 x 500m	8,000m
150kg	4 x 250m	1,000m
250kg	2 x 200m	400m

Standards

- New EN 341:2008
- EN 1496
- ISO 22159
- ANSI Z3594-2007.
