

DuraFlex™ Confined Space Harness

Product description

One of the original Miller® Dura Flex™ harnesses. This harness is perfect for the professional working at height, in confined spaces and in rescue operations.

FEATURES

- Frontal belay loops for frontal fall arrest (must be used together).
- Rear d-ring and 300mm extended dorsal dee with soft eye.
- Equipped with confined space loops.
- Vest style makes it easy to don.
- Dura Flex™ Webbing offering the end user greater comfort and flexibility.
- Equipped with Miller® label pack housing all relevant harness information including donning instructions, connection instructions, AS/NZS 1891.1 2007 certification and inspection grid. The label pack is also equipped with an oversized pull-free lanyard ring enabling the user to temporarily park the lanyard.
- Fully adjustable chest and shoulder straps.
- All attachment points are clearly labelled and define the attachment's application.
- Brightly coloured webbing enables the user to be easily identified whilst working at heights.

APPLICATIONS

Construction and Maintenance
Confined Space applications
Rescue
Iron Work
Shipping applications

Technical Information
