- » Any Work at Height Applications
- » EWP Work
- » Scaffolding
- » Construction and Maintenance
- » Work Positioning and Restraint Applications

PACKAGING

Unit: 1

ADJUSTMENT METHOD

To adjust the lanyard, draw the webbing through the buckle and then feed it through the loop, then back through the buckle. Slide the buckle along the webbing to decrease the loose material.

To adjust the length of the lanyard, slide the webbing through the oval shaped link until the desired length is reached.
