

DuraFlex™ Glove & Barrier Harness

Product description

The Miller™ Glove & Barrier harness was specifically designed without any metal hardware above the waist, making this harness perfect for working at height in live wire situations.

FEATURES

- Frontal belay loops for frontal fall arrest (must be used together).
- Rear 500mm extended dorsal with soft eye.
- Equipped with confined space loops.
- Vest style for easy to don.
- Equipped with a label pack housing all relevant harness information including donning instructions, connection instructions, AS/NZS 1891.12007 certification and inspection grid. The label pack is also equipped with an over-sized pullfree lanyard ring enabling the user to temporarily park the lanyard.
- Fully adjustable: leg, chest and shoulder straps.
- All attachment points are clearly labelled and define the attachment's application.
- Brightly coloured webbing enables the user to be easily identified whilst working at heights.

APPLICATIONS

- Live Wire applications
- EWP
- Confined Space

Technical Information

Manufactured from Dura Flex™ webbing which provides flexibility of movement for the wearer.

Weight 1.3kg

STANDARDS

Complies with Australian Standard AS/NZS 1891.1- 2007.
