

Miller Twin TurboLite G2 Connector

Product description

The lightweight patent-pending Miller G2 Connector allows users to benefit from 100% tie-off with two Miller Turbolites while working at heights.

The D-Pad Clip helps keep the harness webbing and D-Pad in place. It is not required if the D-Pad is sewn onto the harness webbing, but is mandatory when it is not.

Suitable for use on:

- Aircore Harnesses – D-Pad Clip not essential
- Revolution Harnesses – D-Pad Clip mandatory

FEATURES

- Wide connector gate opening allows for quick, easy installation.
- Smooth connector nose prevents snagging during installation.
- D-Pad Clip provides a channel for easy installation.
- Allows Turbolites to swivel independently, increasing mobility and preventing webbing twisting.
- Webbing retainer clip rotates freely to prevent accidental gate opening during a fall.
- Leaves the rear D-ring free for rescue use.

STANDARDS

Meets OSHA, ANSI, CSA and AS/NZS 1891.1.

Quick and Easy Installation

1. Large connector gate allows for quick, easy installation
2. Smooth connector nose prevents snagging on harness webbing during installation
3. D-Pad Clip provides a channel for easier installation of the G2 Connector
4. Webbing retainer clip rotates freely to prevent gate activation

TECHNICAL INFORMATION

G2 Connector:	7075 Aluminium
Webbing Retainer Clip:	High-impact Nylon
D-Pad Clip:	High-impact Nylon
Maximum Tensile Strength:	22.2 kN
Proof Load:	16 kN
Maximum Capacity:	181.4 kg
