

G-TEK® HYDRUS® XF360

18G CUT F FULL DUAL DIP GLOVE

PRODUCT CODE: 16-268F_[SIZE]

HYDRUS

FEATURES

- » The Hydrus® XF360 gloves are constructed using an ultra lightweight 18 gauge Bio-Based XREY™ liner and a dual layer 360° nitrile coating system, delivering cut level F protection (without glass or steel) along with exceptional comfort and dexterity from first use
- » The Bio-Based XREY™ liner is made from renewable biomass materials such as used cooking oil and corn starch stalks, reducing fossil fuel dependence while providing a smooth, high filament construction for a low irritation feel
- » A 360° flat nitrile first layer delivers full liquid and oil resistance from the fingertips to the end of the cuff, ensuring complete coverage without compromising fit, flexibility or comfort
- » An additional palm layer of next generation G² nitrile foam improves grip and durability, outperforming sandy or microfoam nitrile, PU and latex in all environments
- » The 26cm length offers extra protection to the wrists and prevents the ingress of dirt and liquids

SPECIFICATIONS

Liner: XREY™ Biobased Fibre, Nylon, Spandex

Dip: Flat nitrile coating, G² foam nitrile on palm and fingers

Construction: Seamless knit

Cuff: Knit wrist

Gauge: 18 G

Colour: Blue / Black

Sizes: 7(S) - 11(2XL)

APPLICATIONS

- » Automotive and aerospace
- » Construction
- » Metalworking
- » Mechanical
- » Maintenance
- » Industrial Cleaning

PACKAGING

Unit: 1 pair | **Inner:** 12 pairs | **Carton:** 120 pairs

CARE INSTRUCTIONS

The gloves can be machine washed at 40°C with a standard detergent (3 wash cycles). Air dry. This helps extend the glove's lifespan and reduce costs and waste.
