

Miller DuraHoist™ Weld-On Plate with Tie-Off Anchor

Model: DH-AP-4/

Description

The weld-on plate is designed to be permanently welded to existing structures in locations of frequent work, or where use of a portable base is impractical. Compatible with all Miller DuraHoist fall-arrest masts and accessories.

Materials

General Construction:	Welded Steel
Weld Certification:	AWS
Material:	HR Plate and Bar
Finish:	Provided in bare steel for welding

Technical

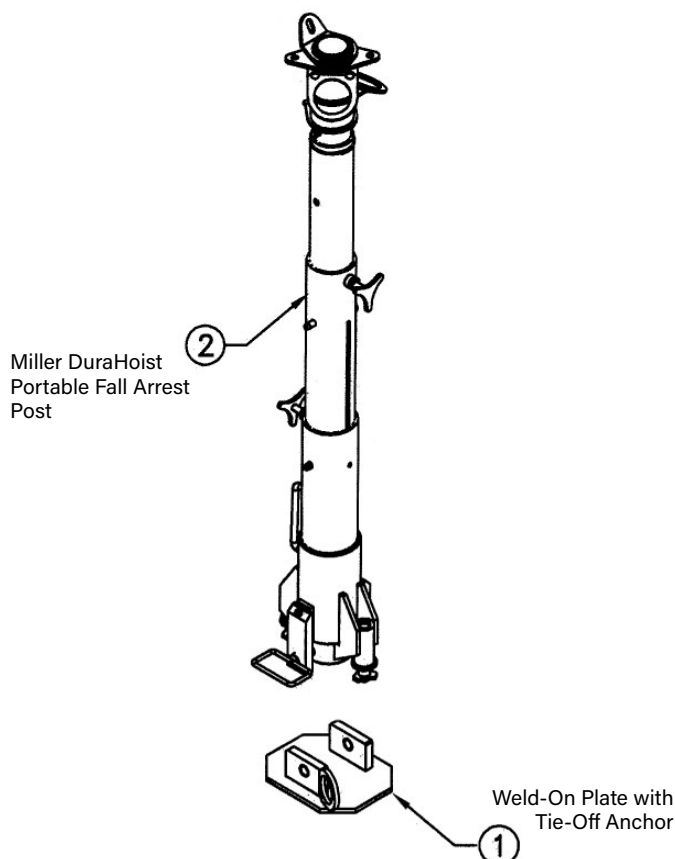

Proof Load Moment:	190,000 in-lbs (20.8 kN-m)
Anchor Eye Proof Load:	5,000lbs (22.2kN)
Weight	11.8lbs (5.3kg)

The plate is designed to support the loads required by all portable fall-arrest masts and accessories, when installed and used in accordance with the manufacturers instructions.

Mounting Requirements

DH-AP-1/ Portable Fall-Arrest Anchor Post

Moment Requirement:	190,000in-lbs (20.8 kN-m)
Vertical Load Requirement:	3100 lbs (13.8 kN)

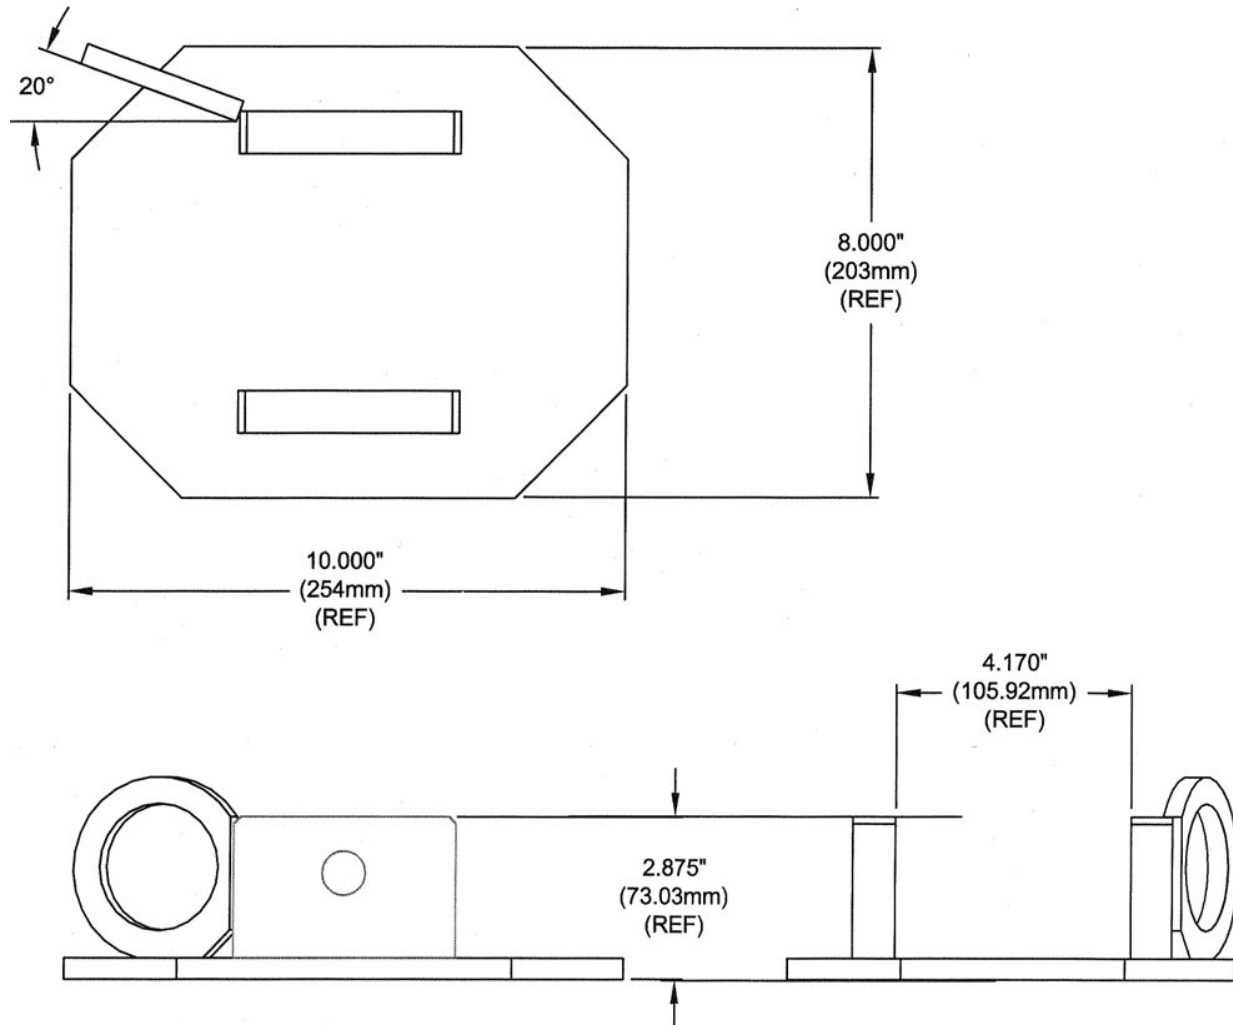

Application Restrictions

1. This product is designed for use with all Miller DuraHoist portable fall-arrest masts and accessories only.
2. Ratings, capacities and design factor may vary with system components and configurations. Consult specification sheets for all system components to ensure compliance with requirements.
3. Welding procedure must be approved by qualified personnel to be compatible with any and all structural and operational characteristics of the selected installation location.
4. Mounting surface must be within 15° of horizontal for Model DH-AP-1 and plate must be installed so that the portable fall-arrest mast can be leveled for use.
5. Each installation must be approved to local standards by a qualified engineer.
